FINALLY... a home that backs onto the ravine that IS NOT a walkout basement! This rare find offers the beauty of ravine views with the added safety and privacy that comes from having no direct backyard exit at basement level. It's perfect for families with young kids who can play freely outside, senior parents who need a more secure layout, or for parents who prefer peace of mind knowing that adventurous teenagers won't be sneaking out unnoticed. Step inside from the heated garage into an upgraded mudroom with built-in benches and an oversized walk-in closet. The walk-through pantry leads to a bright, open-concept kitchen with large windows framing your ravine view. The south-facing, fully landscaped backyard features a deck, balcony, and direct access to community pathways for walks, bike rides, and evening strolls. Upstairs, the bonus room is ideal for family movie nights, with laundry conveniently near all bedrooms. The primary suite offers a spa-inspired ensuite and custom walk-in closet, separated from the kids' rooms for privacy. Downstairs, the fully finished basement adds flexible living space for teens, guests, or hobbies. AND DID SOMEONE SAY.. HIDDEN STORAGE?!?! Since this is NOT a walkout, the space under the balcony has been transformed into a fully enclosed storage room with windows, electricity, and French doors....discreetly blending into the exterior so you'd never know its even there. With brand-new shingles and siding in 2025, this home in the heart of Nolan Hill delivers the perfect blend of location, safety, and family-focused design.
