Built just three years ago by Trico Homes, this property blends modern function with upscale finishes and sits on a beautifully landscaped, pie-shaped lot backing directly onto green space and a playground – ideal for families and those who appreciate open, sunny views. From the moment you arrive, the upgraded exposed aggregate driveway, stone-accented exterior, and custom Gemstone lighting create striking curb appeal. Step inside to discover high ceilings, a bright, open layout, and timeless finishes throughout. The kitchen is equipped with designer cabinetry, stone countertops, stainless steel appliances, under-cabinet lighting, and a plumbed fridge. A wooden mantle feature adds warmth to the main living area, and Wi-Fi boosters installed on the upper floor ensure seamless connectivity throughout the home. Upstairs, the primary suite is a standout, featuring a spa-inspired ensuite with a soaker tub, dual vanities, and a large walk-in closet. The drapes in the primary bedroom are included for added convenience. Every detail has been carefully considered to create a space that is both stylish and functional. The professionally finished walkout basement, completed by the builder, offers additional living space and is prepped for a ceiling-mounted projector – ideal for a future home theatre or entertainment area. A 75-gallon gas water tank, HRV system, and high-efficiency mechanical systems support the home’s overall performance and comfort. Outdoor living is where this home truly shines. The sunny, west-facing backyard offers all-day natural light and is fully landscaped with lush green grass, a thriving vegetable garden, and an

extended deck with aluminum and glass railings that overlook the park and greenway. The lot is fenced on one side and provides a spacious, private outdoor retreat. A rough-in for an EV charger in the garage, a built-in storage loft, and a 4-ton central air conditioning unit (with cover) add even more value and convenience. For peace of mind, the property is equipped with a Supreme security system that includes a smart panel, doorbell camera, outdoor garage camera, and backyard camera.
