ELIGIBLE FOR FIRST HOME BUYERS GST REBATE. A stunning home by Alpine Boutique Builders where every detail has been thoughtfully woven into a layout that feels natural, breezy, and beautifully connected from top to bottom. The main floor welcomes you with vaulted ceilings that lift the space and draw in the light, creating a warm, coastal feel the moment you step inside. The great room's electric fireplace adds a rustic charm, making it a cozy gathering spot after a day by the water and allows you to step out to your front or back deck with incredible views. The kitchen flows seamlessly from here, designed with both style and function in mind—a seated island at the center, a slide-in gas range, a 36-inch wide fridge, a plenty of storage, and a charming coffee bar complete with its own pot filler. It's a space meant for easy mornings, casual conversation, and the rhythm of lakeside living. The primary suite continues that sense of relaxation, offering a spa-like retreat with dual sinks and a flush base shower that feels both modern and calming. Two additional bedrooms on this level provide welcoming spaces for family or guests, all connected by effortless movement through the home. Large windows, abundant pot lighting, and smooth access to the covered deck and sundeck make indoor-outdoor living part of the everyday experience. Even outside, convenience is built in with hot and cold, water and gas hookups on all decks and driveway. The lower level extends that same inviting flow with two more spacious bedrooms (that could be a den or office) give this level a relaxed, flexible feel, offering room for guests, recreation, or quiet retreat. A dedicated laundry room with a sink, thoughtful storage areas, and mechanical rooms tucked neatly away make day-to-day living smooth and organized. Comfort is built

into the core of the home. An air exchanger keeps fresh air circulating throughout every room, including the bathrooms. The entire lower level, including the garage, is roughed in for three-zone in-floor heating, ready to keep things warm through the colder months. A 97% efficient furnace with a stainless steel core, A/C rough-ins, and on-demand hot water ensure year-round comfort and efficiency. The oversized garage is A DREAM and designed for true lake life, so spacious, with room for a pontoon or wakeboard boat and direct access to the lower level. It's also prepared for the practicalities that make living here easy: a radon system, sink rough-in with power for a possible dog wash, smart-home monitoring breakers, a 30-amp exterior plug for recreational equipment, 150-amp service, and full generator rough-ins for backup power whenever needed. From the vaulted main-floor living spaces to the welcoming lower level and outdoor retreats, the entire home is crafted for comfort, connection, and the relaxed charm of lakeside living—every feature chosen to make life at Little Bow Resort as effortless as it is beautiful.
