The adjacent dining area enjoys views of the backyard through a large window, and a two-piece powder room is thoughtfully located near the back door for convenience. Upstairs, the primary bedroom is a true retreat with a private five-piece ensuite featuring a soaker tub, stand-up shower, and double vanity, along with a spacious walk-in closet. Two additional bedrooms and an upper-level laundry room make this floor ideal for family living. The lower level, complete with a large egress window, offers the potential to add a fourth bedroom or create a custom-designed living space. Outside, the backyard is ready for entertaining with a freshly painted two-tier deck — perfect for summer barbecues and family gatherings. There's also ample space for a future double garage accessible from the paved alley.
