Situated directly across from the Balmoral School field, this unique 2004-built property offers partial downtown views and sits just minutes from the city center, public transit, and the new Balmoral Circus Park. The home's exterior features a stylish blend of stucco and stone, complemented by a covered front porch and a professionally landscaped, fenced backyard with a spacious deck and stone patio. Inside, the main level is defined by beautiful hardwood flooring, 10-foot ceilings in the front living room, and a custom-built curved staircase with integrated lighting. The central kitchen is fully equipped with upgraded maple cabinetry, granite countertops and stainless steel appliances. An adjacent dining area features custom archways and an elevated seating nook designed to maximize the south-facing park views. At the rear of the main floor, a cozy family room offers a gas fireplace, custom built-ins, and 10-foot ceilings. The upper floor includes a full size den with a skylight and three additional bedrooms, including a primary suite sized for king-sized furniture with a walk-in closet and a luxurious ensuite featuring a soaker tub and separate shower.
