The kitchen is ideal for entertaining with ample prep space and storage, plus a versatile room just off the kitchen that could serve as a large pantry, additional storage area, or small office space. Beyond the kitchen you’ll find a private primary bedroom wing – the only bedroom on the main floor – offering excellent separation and comfort. This spacious retreat includes a walk-in closet, laundry room, full 4-piece ensuite bathroom, and private patio doors leading directly to the deck, creating a true indoor-outdoor connection. Downstairs, the fully developed basement provides two additional bedrooms, a spacious family room, a dedicated workout area that could easily be converted into a third basement bedroom if desired, and a 4-piece bathroom with heated floors, adding a touch of everyday luxury. Outside, the backyard truly shines as a private oasis with a large patio area, outdoor kitchenette, underground sprinklers, and ample space to host family and friends. For those needing serious shop space, this property delivers with a massive 32x36 detached shop that is fully finished and heated, along with an additional 20x22 structure that was previously a garage and now sits on a dirt pad, offering excellent storage or the potential to be converted back into a functional shop with some work. This is a standout property offering quiet
