Welcome home to this luminous and spacious, meticulously maintained 2021-built 3-bedroom home in the peaceful and family-friendly neighbourhood of Garry Station. Backing onto a large field for added PRIVACY (beautiful view from your back patio!) and filled with many elegant and practical touches (including AIR CONDITIONING!), this home is a must-see. The bright and airy entry opens directly onto a beautiful laminate flooring that leads the way towards a large living room with gas fireplace. The gourmet kitchen boasts chic grey cupboards in abundance, complete with gleaming quartz countertops, stainless-steel appliances, a gas cooktop, and a large, workable island with sink. The walk-through pantry is incredibly useful, and connects to the mud room off the garage. The dining area is tucked into a bright nook filled with windows, and a door that leads straight to the patio. The patio is sun-filled all day during the summer and also has a gas hook-up for the all-important summertime BBQ season. Going upstairs, the flooring is a comforting carpet which brings us to a generous family room and two good-sized bedrooms as well as a 4pc bathroom. The primary bedroom is at the end of the hallway, and it boasts a large walk-in-closet and spa-like 5 pc ensuite bathroom with a gorgeous tub. The second floor is completed by a laundry room which makes washing day so much easier when it can be done upstairs. The home also has a large basement, currently unfinished and waiting to be turned into something spectacular. The basement has a walk-out to the FENCED, very private, and FULLY LANDSCAPED large back yard, making this home ideal for families looking for space to grow. This home is warm, welcoming and move-in ready. Like new, but better!
