The oversized island features pots & pan drawers and doubles as your breakfast bar. Floating shelves and gorgeous subway tile backsplash add that touch of class to the kitchen. One of the most unique features of the kitchen is a "lazy susan" pretty much unlike one you have seen before. The pictures give you an idea of how the shelves pull out giving you an amazing amount of storage with the ease of getting to those items tucked way in the back. Access to the large deck is just off the dining area. There is a 4th great sized bedroom downstairs that has a super great walk in closet. Then, there is an amazing laundry room complete with a top of the line washer & dryer and room for a deep freeze or why not turn the extra space into a great home gym and just off the laundry is a large 3 piece bath with a neo angled shower. One of the things you will love is the pony wall all around the walls downstairs to

display your treasures. A 2 tiered deck means you will have plenty of space to entertain friends & family during the summer nights and the detached garage offers room for your vehicles and plenty of space for a workshop.
