Step inside to a bright, welcoming main floor featuring beautiful Hunter Douglas blinds in the living room and a layout designed for easy everyday living. The comfort upgrades are already done for you — air conditioning added in 2023, windows replaced in 2020, and a new 50-gallon hot water tank (2024) for peace of mind. Downstairs, the fully finished basement offers incredible flexibility — complete with a separate side entrance, making it a prime opportunity for a future suite. Whether you're thinking multigenerational living or added income potential, the setup is already in your favour. Now, let's talk garage goals. The detached garage is fully insulated (2022), heated (2022), features a 240V outlet, and even has a brand new roof (2025). Workshop? Home gym? EV charging? You're covered. Outside, enjoy a private backyard with a self-maintaining, drought-resistant garden — low effort, high enjoyment. This is the kind of home where the big-ticket items are done, the upgrades are thoughtful, and the possibilities are exciting. Welcome home!!
