This well-kept bi-level offers a practical layout and comfortable living space in a convenient location. Built in 2002, the home features vinyl windows, asphalt shingles, and vinyl siding for low-maintenance ownership. The main floor offers an open design with a relatively spacious living room highlighted by a large front window, flowing into the dining area off the kitchen. The kitchen is functional and bright with linoleum flooring, light oak cabinets, laminate counters, a pantry, and a modern deep stainless steel sink. Three bedrooms are located on the main level, all finished with carpet and standard closets, with the primary bedroom offering a slightly larger footprint and closet. A 4-piece main bathroom includes linoleum flooring, an oak vanity, and a white tub/shower surround. The fully developed basement adds valuable living space, featuring a large family room with carpet flooring and pot lighting throughout. The basement bedroom is generously sized with a larger closet, and a second 4-piece bathroom offers a tiled tub surround and a more modern vanity. Outside, the home sits on a large pie-shaped lot with a wood deck overlooking a fenced, grassed yard. The rear gravel parking pad provides ample off-street parking and offers excellent potential for a large future detached garage or shop. Located just around the corner from a small playground, steps to a larger park, close to Holy Family Elementary and Deer Park Shopping Centre, and backing directly onto a walking trail, this home offers a great balance of space, location, and everyday functionality.
