Opportunities like this are limited, especially within this community where most duplexes do not offer this setting. Inside, you will notice the care and investment immediately. The home has been meticulously maintained and thoughtfully upgraded with over \$85,000 in improvements. New white oak hardwood flooring runs throughout, creating a warm and clean feel. Large new windows bring in natural light while improving energy efficiency. The kitchen features updated appliances and flows seamlessly into the main living space, making everyday living and entertaining simple. The mechanical upgrades give you confidence moving forward. A high efficiency two stage furnace, new hot water tank, water softener, and a dedicated drinking water filtration system are already in place. A radon mitigation system adds another layer of long term peace of mind. The layout offers two spacious bedrooms and two full bathrooms, ideal for downsizers who still want space, or buyers looking for easy main floor living without compromise. Step outside and you will appreciate the added touches that make this home stand out. RV parking provides flexibility that is rarely available in this type of property. The yard includes an irrigation system, mature landscaping, added trees for privacy, and a gas line on the deck ready for your BBQ setup. As an added bonus, the home comes with materials and supplies for future basement development which has an increased ceiling height, giving you the option to expand your

living space and add value over time. This is a home for buyers who value a quiet community, pride of ownership, and a turn key property with the major work already done. Living in Boulder Creek Estates means enjoying a relaxed pace, golf nearby, a strong sense of community, and quick access back into Calgary when needed.
