Click brochure link for more details** Fully renovated, move-in ready home with 2640 sqft of total living space including a legal basement suite — this is the kind of home that rarely comes up in Chaparral. Everything has already been done for you. The main floor has been completely updated with new flooring, fresh paint throughout (including ceilings), and a modern kitchen with quartz countertops and high-end appliances. The layout is bright, open, and just feels good the moment you walk in. Upstairs, the bathrooms have been beautifully redone and include heated floors — one of those upgrades you'll appreciate every single day. Beyond the cosmetic updates, the big-ticket items are taken care of too: new furnace (2024), central A/C (2023), and a full home water filtration and softening system. There's also smart home features like smart locks, doorbell, and upgraded smoke/CO detectors, plus permanent exterior lighting and a new garage door with smart opener. Downstairs is a fully self-contained legal suite with its own entrance, kitchen, and laundry — ideal for rental income, extended family, or just added flexibility. The backyard faces southeast, so you get great morning sun without the intense afternoon heat — perfect for enjoying your outdoor space. Set on a quiet street in Chaparral, close to parks, schools, and everyday amenities, this home offers a great balance of location, quality, and long-term value.
