The exterior features a long exposed aggregate driveway with parking for potentially four vehicles, an attached and heated double garage, stone veneer accents, vinyl siding, and a covered front entry that creates a warm first impression. Inside, the main level offers an open concept layout with hardwood flooring and an inviting living space centred around a gas fireplace. The kitchen is both functional and stylish with granite countertops, stainless steel appliances, a four burner gas stove, pantry, and an updated dining light fixture in the dining room installed in 2023. A two piece bathroom and a main floor laundry area with sink add everyday convenience. Upstairs, a large bonus room with vaulted ceilings and three oversized windows adds an incredible additional living space. New luxury vinyl plank flooring installed in 2024 throughout the second levels adds a modern touch. The primary bedroom is spacious enough for a king sized bed and features blackout blinds, updated lighting, a large walk in closet and a full ensuite with a jetted tub and two sinks. Two additional bedrooms and a full bathroom complete this level, with all bathrooms updated in 2026 with new black fixtures and fresh paint. The basement is only partially developed, currently being used as a home gym and awaits your creative ideas. Outside, the backyard is designed for enjoyment and entertaining with a fully fenced yard, a large concrete pad, and a wraparound privacy wall. A

metal top gazebo creates a comfortable outdoor lounge space, while the hot tub, added in 2021, offers the perfect place to unwind. A gas line is ready for your barbecue, and a shed provides extra storage.
