Five bedrooms, three bathrooms, a heated double attached garage and just a short walk to College Park School — this one checks a lot of boxes. This 1,272 sq. ft. bi-level offers a layout that works well for busy households with 3 bedrooms on the main floor, a bright living room with updated laminate flooring, gas fireplace and a functional kitchen with island and corner pantry. The fully finished basement adds 2 more large bedrooms, a generous family/rec room and a finished laundry room with a sink and closet storage that gives you more useable space than you might expect. The yard is fully fenced and landscaped with a deck and lower patio already in place. Poly B plumbing has been replaced, shingles 2021, A/C 2020. In a neighborhood that continues to be a top choice for many buyers, this is one worth a look.
