This two-storey home is situated on a huge corner lot with beautiful, mature trees and mountain views. The property consists of three half lots & 3,000 feet of boulevard, with the house located on the middle lot. That means you have tons of room to build a garage, put in a garden, or do both & still have a great yard to enjoy. The yard is fully fenced to keep the kids and pets safe. The home is on a dead-end street that leads to a great playground and basketball court. A short walk across the school yard takes you to St. Michael's Catholic School, and just down the hill you'll find all that Main Street has to offer. The four-bedroom, two-bathroom house was built in the early 1900s, however the plumbing, heating, and electrical were all updated in 1986. If you drive by, you'll see the home and yard have charming curb appeal, with the siding and roof both updated in 2012. It feels a bit like a small acreage in town - there is so much potential with this property. Call your favourite REALTOR® today to see for yourself!
