The real wood fireplace adds a touch of warmth and charm, becoming a rare commodity in today's homes. It's the perfect spot to unwind during those colder months. Perhaps you want to watch TV and wind down before bed, you can do that in the primary suite with a designated living area before entering your master bedroom. The updated bathrooms offer sleek finishes and a clean, modern feel. One of the standout features of this property is the separate basement entrance, providing great potential for a rental from the existing illegal suite to generate revenue and help pay the mortgage. This added flexibility makes the home a smart investment for anyone looking for a secondary income stream. The property also boasts new landscaping and drainage work, ensuring water is properly diverted away from the house. The large backyard is a private oasis, featuring a concrete terrace perfect for outdoor entertaining, a storage shed, and additional storage space beside the HEATEAD garage, which could easily be converted into a small RV parking spot. The front yard and backyards are fully fenced, offering a secure space for children or pets — especially ideal if you have a dog.
