The main floor with updated light fixtures rocks a large living room and with it being an end unit with more windows the natural sunlight makes this an incredibly bright space that flows seamlessly into the dining room, kitchen and main floor half bathroom. Upstairs you'll be pleased with the spacious primary bedroom retreat that easily fits a king sized bed plus your other associated furniture and the primary bedroom has direct access to the upstairs 4 piece bathroom. Down the hall you'll find two more spacious bedrooms. The fully finished basement has a family room perfect for movie nights, an office space, entertaining, as an extra bedroom (currently has a Murphy bed that is included!) or as an exercise space that is adjacent to the laundry room and yet another full bathroom with a beautiful tiled shower! The thoughtfully developed basement also has a storage room next to the mechanical room to optimize the space! This is an opportunity to own and live in a home that is tough to find right now and it comes with a quiet location in this complex with mature trees and it backs a walking path.
